

PH STEELS

ABOUT US

Established in the year 2014, at Ghaziabad (Uttar Pradesh, India), we “Ph Steels”, are engaged in trading and supplying a wide range of Steel Products. Product array provided by us includes Steel Channels, Steel Angles and Steel Bars. These products are extensively used in general purpose concrete reinforcement structures, industrial structures, high-rise buildings, bridges and flyovers, thermal and hydro power plants, etc.

Sourced from certified vendors of the market, the offered products are manufactured using the top-notch quality raw material and advanced technology. Our offered products are widely admired by our esteemed clients owing to their incomparable features like optimum strength, dimensional accuracy, high ductility, bendability and weldability, high thermal resistance and rust proof nature.

The offered products are also available in different specifications for our esteemed clients at market leading prices. Besides, we also render highly reliable Slitting Services, Coil Cutting Services and Steel Sheet Cutting Services. These services are broadly appreciated by our clients for their perfect execution, reliability and cost effective prices. Also, we are a reputed stockists of SAIL.

MISSION

To be one of India's best Steel Solution provider and create value for customers by providing best products, customized service and Strive for excellence without compromising on values and Ethics

VISION

To be the leading company in India supplying best quality steel and steel products and setting benchmarks in customer satisfaction.

VALUES

- Integrity and transparency to be ethical, sincere and open in all our transactions
- Leadership by example to set standards in our business and transactions & be an example for the industry and ourselves.
- Excellence to strive relentlessly , constantly improving ourselves to become the best supplier and service provider.

QUALITY POLICY

- All our Incoming supplies are checked for various quality aspects such as chemical composition, microstructure, hardness, bent test, and thickness tolerance or any critical requirements mentioned by the customer.
- All our Quality Equipments are regularly calibrated as per standard requirements.
- Also all our outward supplies are accompanied by test certificate report and we maintain complete traceability of material supplied.
